

# Coral Smoothie™

**FEED THE FRENZY!**

## FAST, CONVENIENT, UNCOMPLICATED FEEDING

Coral Smoothie™ is a first of its kind for natural and convenient marine aquarium feeding .

Coral Smoothie™ has been designed to provide the variety of food items found on tropical coral reefs.

Coral Smoothie™ is formulated with everything from vegetable protein to whole zooplankton and eggs .

Coral Smoothie™ has been proven to stimulate marine tanks drawing responses from invertebrates such as snails and shrimp to corals and fish.

Coral Smoothie™ particle sizes range from 2 to 5,000 microns.

Coral Smoothie™ contains:

- *9 species of microalgae*
- *Artemia nauplii*
- *Copepods*
- *Rotifers*
- *Clam larvae*
- *Oyster larvae*
- *Oyster eggs and tissue*
- *Hydrolyzed vegetable protein*
- *Fish Eggs*
- *Decapsulated artemia cysts*
- *Copepod eggs*
- *Mussel & Squid*

Coral Smoothie™ comes with an applicator tip that, once cut, will enable the user to spot feed simply by inserting the bottle into the tank; then point and feed. Coral Smoothie has a 6 month shelf life and does not need to be kept refrigerated until it is used. However after opening it should be refrigerated. It is not a live product. Feed the Frenzy.

Available in 8oz and 16oz sizes with applicator cap.
